

Background

All statistics reflect entries made on the MetAIR database at the time the report was compiled.

All monthly data is based on the month in which the incident occurred rather than when it was reported.

The major sections show the month by month trend with the total column representing the calendar year to date. In addition the Accident Type and Injury Type figures are now shown as injuries per thousand MPS staff in addition to actual numbers.

MPS strength figures are obtained from the monthly Workforce Data report produced by Workforce Planning.

"Major" and "More than 3 day" These incidents break down as follows:

Exposed to an Explosion - 2
Fell from a height - 7
Hit by a moving vehicle - 19
Hit by a moving, flying or falling object - 1
Hit something Fixed or Stationary - 9
Injured by an animal - 3
Injured while handling, lifting or carrying - 9
Physically assaulted by a person - 15
Slipped tripped or fell on the same level - 18
Others - 32

Injuries Grouped by Injury Class August 2004 to July 2005
