Satisfaction with...	2006/07 Apr-Sep
Overall service received	67%
...making contact	91%
...action taken	63%
...being kept informed	43%
...treatment by staff	86%
White victims overall	67%
BME victims overall	67%
Gap	0%

*Only three quarters of data are available for this survey.

Key messages from the surveys

British Crime Survey

- Confidence in local policing remains steady and the MPS leads its Most Similar Force group in this indicator.

Public Attitudes Survey

- Overall confidence and satisfaction in policing remains higher than in 2004/05, but not at the exceptionally high levels seen in 2005/06.
- The exceptional trends in quarter 2 – an increase in worry about anti-social behaviour, poorer ratings of ‘community relations’ and ‘being kept informed’ – have been reversed in quarter 3.

Safer Neighbourhoods Performance Framework

- This shows mixed results: worry about anti-social behaviour increased slightly, but people feel safer walking alone after dark.

Crime Victim Satisfaction Survey

- The overall level of satisfaction with total service remains steady, currently on average at 79%.
- The gap between white and BME victims overall satisfaction with the service has closed slightly, with the gap at 6 percentage points, down from 7.

Anti Social Behaviour Satisfaction Survey

(NB: this is a new survey and so we only have data for the first two quarters of 2006/07.)

Please note: A ‘surveys explained’ document has been produced to complement this information.
