Public Satisfaction Information

Key messages from the surveys

British Crime Survey (Year to 31 December 2006)

- The MPS leads it's Most Similar Force group in confidence in local policing.

Public Attitudes Survey (2006/07 vs. 2005/06)

- Overall confidence and satisfaction in policing remains higher than in 2004/05, but not at the exceptionally high levels seen in 2005/06.

Safer Neighbourhoods Performance Framework (2006/07 vs. 2005/06)

- This shows mixed results: confidence in local policing fell slightly, but feelings of safety during the day remain steady.

Crime Victim Satisfaction Survey (2006/07 vs. 2005/06)

- The overall level of satisfaction with total service remains steady, currently on average at 78% (down from 79% last year, but not significantly so).
- The gap between white and BME victims overall satisfaction with the service has closed slightly, with the gap at 6 percentage points, down from 7.

Anti Social Behaviour Satisfaction Survey (2006/07)

(NB: this is a new survey and so we only have data for 2006/07)

- Aside from ease of contact, victims of anti-social behaviour are less satisfied than those of in the Crime Victim Survey (victims of violence, domestic burglary, motor vehicle crime and of road accidents).
- The gap between white & BME victims is only 1 percentage point.

Please note: A 'surveys explained' document has been produced to complement this information.

A significant change is highlighted in **green** (improvement) or **red** (deterioration)
