

APPENDIX 1

TP PFM family group 3

Public Complaints allegations per 100 officers by type – February 2005 to January 2006.

In line with wider MPS public complaint distribution, the majority of allegations are concentrated in the areas of *oppressive behaviour*, *failures in duty* and *incivility*. Westminster does however show a higher number of allegations of the type *other*. These are the remaining '*Pro-Hunt*' allegations forwarded to the MPS by the IPCC in June 2005. The '*Pro-Hunt*' allegations have skewed the data in a number of instances and where this is the case it will be commented upon.

The following table illustrates the numbers of allegations per 100 officers by type and whether a borough is above the group average in which case the figures will be in both **blue** and **bold** text.

TP PFM Family Group 3							
	Camden	Westminster	Hackney	Lambeth	Southwark	Tower Hamlets	Group Averages
Oppressive Behaviour	15.68	13.03	11.32	18.04	13.48	11.52	13.26
Discriminatory Behaviour	3.46	1.65	1.02	3.77	1.81	3.97	2.64
Malpractice	2.19	1.77	2.16	2.96	3.40	1.92	2.18
Failures in Duty	12.69	8.35	6.10	11.62	9.17	12.80	10.40
Incivility	8.07	6.71	4.07	6.93	7.82	7.30	7.11
Traffic Irregularity	0.23	0.51	0.25	0.10	0.11	0.26	0.24
Other	0.92	7.97	0.13	0.82	0.45	1.79	0.87
Total	43.25	39.99	25.05	44.23	36.25	39.56	39.77

It can be seen that, within the group, there is a wide range of total allegations between 25 and 43 per of 100 officers with a group average of 40.

Camden and *Lambeth* have the highest number of complaints per 100 officers. It is interesting to note that *Hackney* is considerably below its peers in terms of their overall

total and by type with the exception of Traffic Irregularities where it is only marginally above the group average.

The following table illustrates specific factors evident within the allegations recorded above.

	TP PFM Family Group 3						
	Camden	Westminster	Hackney	Lambeth	Southwark	Tower Hamlets	Group Averages
Officer Safety Equipment	5.30	1.90	1.78	3.46	2.38	1.54	2.14
Stop & Search (inc s44)	7.61	3.29	3.81	6.22	4.76	1.28	4.29

Camden, Lambeth and *Southwark* all have a higher than average number of allegations in which the use of Officer Safety Equipment (OSE) is a factor. [OSE related allegations include the use of Handcuffs, Batons or CS Spray].

In respect of Stop & Search related allegations, *Camden, Lambeth* and *Southwark* also have a have an above group average total.

The following tables illustrate the monthly average trends for each borough over the last month, 3 months, 6 months and 12 months.

	TP PFM Family Group 3							MPS Total
	Camden	Westminster	Hackney	Lambeth	Southwark	Tower Hamlets	Group Averages	
Current month (actual)	0.81	1.14	1.14	3.46	1.25	1.66	1.20	1.27
Average over the past 3 months	3.54	2.09	1.36	2.41	1.96	1.37	2.03	1.77
Average over the past 6 months	3.63	2.17	1.55	3.07	1.98	2.01	2.09	2.03
Average over the past 12 months	3.60	3.33	2.09	3.69	3.02	3.30	3.31	2.42

The group average of allegations per 100 officers over the past year is less than 3 per month with the exception of the 12 month average, which has been affected in part by the additional 'Pro-Hunt' allegations received in June 2005. *Camden, Westminster* and *Lambeth* have remained above the group average over much of the year.

The rolling 12-month averages for the period February 2005 to January 2006 show that *Camden, Westminster* and *Lambeth* have a rising trend albeit in small increments. Conversely, *Hackney* shows a small incremental downward trend, which is has particularly evident since July 2005.

Outcomes (Allegations):

The following table appears for the first time and illustrates how allegations have been resulted in the period, February 2005 to January 2006.

	TP PFM Family Group 3						Group Averages
	Camden	Westminster	Hackney	Lambeth	Southwark	Tower Hamlets	
Local Resolution	15.11	9.93	17.80	15.69	10.42	10.24	12.76
Substantiated	0.35	0.70	0.13	0.82	1.47	0.64	0.67
Not Substantiated	9.69	12.34	6.23	14.37	16.20	20.10	13.35
Withdrawn	9.34	7.21	4.32	4.18	5.66	5.38	5.52
Dispensation	7.03	7.85	7.12	15.80	14.16	9.22	8.53
Not Recorded	1.15	4.87	0.38	3.36	0.91	0.26	1.03
Grand Total	42.67	42.90	35.98	54.21	48.82	45.83	44.36

The data reveals that *Camden, Hackney & Lambeth* resolve locally a higher than group average number of allegations which can be seen as positive.

Not Recorded allegations are those that are not deemed to be complaints under the Police Reform Act 2002, as they do not directly relate to the 'conduct' of an individual or group of officers. Although they are not recorded as complaints they will nevertheless be recorded and dealt with to the satisfaction of the complainant by intervention between DPS and the Borough itself.

Lambeth, Southwark & Tower Hamlets have the most allegations resolved by way of a *Dispensation* from the IPCC. *Dispensations* are usually granted where the complainant cannot be traced or does not wish to cooperate with the investigation. The Commission is granting fewer *Dispensations* with their preference being for DPS to conduct proportionate investigations.
