## Victims of Serious Sexual Offences Defined by Diversity Strands

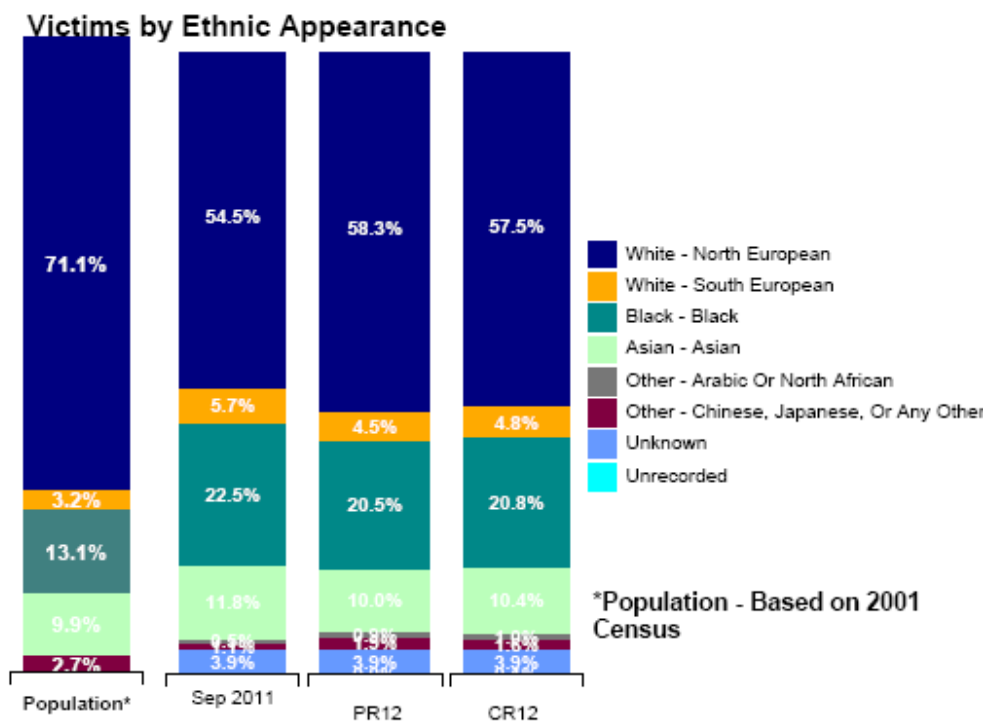

The attached bar chart uses data extracted by the Performance Information Bureau to illustrate the breakdown of victims of serious sexual offences by age group, set against their overall representation in the population at large.

The Column marked PR 12 provides the figures for the rolling 12 months to September 2010

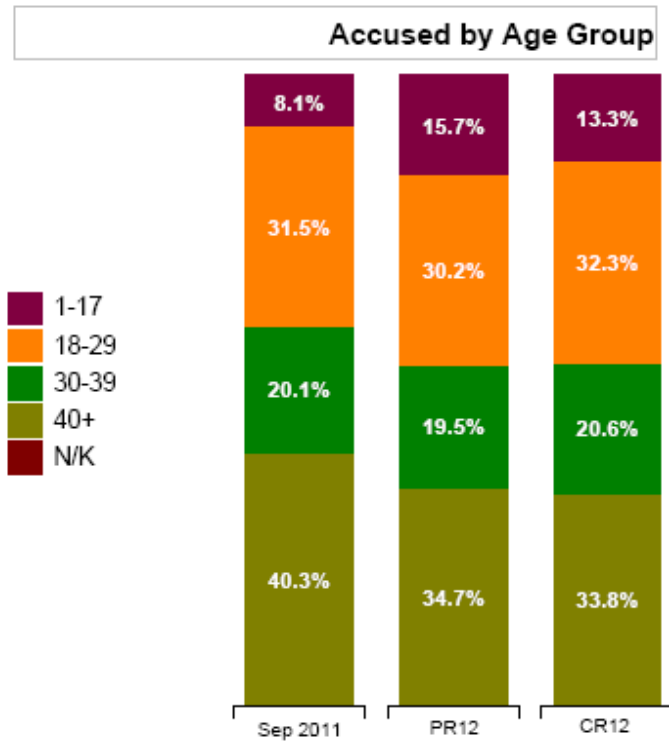

The Column marked CR 12 illustrates the same for the 12 months rolling to September 2011

This diagram illustrates the same based on the ethnic appearance of victims.

Persons Accused of Serious Sexual Offences broken down by diversity strands

**Accused by Grouped Self Defined Ethnicity**
