(Borough based community monitoring)

Operation Pennant

Operation Pennant is a performance framework for Stop & Search. It addresses issues in relation to Stop & Search. The aim is to improve:

- performance by increasing the proportion of searches leading to property being seized or people being arrested.
- the perceptions of fairness about the use of the powers
- accountability of police action to local communities
- the quality of intelligence used as the basis for police use of these powers
- community confidence in the use of police power
