Audit Title: B/OCU - Corporate Issues		Published: Raised April 2009	
Ref	Recommendation	Current Progress & Milestones	Status
1	<p>This audit highlighted corporate issues identified as part of the B/OCU audit programme for the attention of relevant systems owners.</p> <p>Recommended that:</p> <ul style="list-style-type: none"> <li>• <i>On Police Overtime:</i> <ul style="list-style-type: none"> <li>○ <i>The limitations of MetDuties in respect of overtime recording and authorising are highlighted and addressed.</i></li> <li>○ <i>An efficient, effective and consistent interim solution is identified and guidance issued to B/OCUs.</i></li> <li>○ <i>Corporate guidance in respect of Working Time Directive (WTD) rules is published to increase B/OCU awareness</i></li> </ul> </li> </ul>	<p align="center"><u><b>Overtime</b></u></p> <p>DARA have confirmed that this recommendation can be downgraded to a medium but it remains outstanding as the new CARMs 3 is not being used consistently by all BGs, e.g. SO and SCD are not using it for booking on and off and the WTD issues will not be fully addressed until there is a system to monitor the hours worked by non federated ranks.</p>	<p><b>Agreement to formally down grade to a medium risk recommendation</b></p>
	<ul style="list-style-type: none"> <li>• <i>On Crime Property:</i> <ul style="list-style-type: none"> <li>○ <i>A strategic framework is established that includes the creation of an operational system owner and the development of KPIs and performance monitoring</i></li> <li>○ <i>The Crime Property System (TOAST) and accompanying records and activities are reviewed and revised, where appropriate, to ensure that they meet current MPS needs and address key system risks</i></li> <li>○ <i>The impact of NSPIS on the crime property system is assessed and the current weaknesses are addressed before the system is rolled out to other B/OCUs</i></li> </ul> </li> <li>• <i>Any system interdependencies are identified and that consideration is given to developing a corporate integrated property management system</i></li> </ul>	<p align="center"><u><b>Crime Property</b></u></p> <p>See entry under Crime Related Property audit.</p>	<p><b>In progress - not yet fully addressed within original agreed target date(s)</b></p> <p><b>Target Implementation Date: See entry for Crime Related Property</b></p>

2	The Head of Partnerships ensures that the arrangements for PCSO/Police Officer resources funded by local authorities are reviewed, collated, co-ordinated and treated on a consistent basis and entered in the database addressing the risks relating to future partnership funding.	<p><b>Sept 2011 Update from Head of Partnerships - MPS</b></p> <p>All arrangements for PCs, PCSOs and staff funded by local authorities are now managed consistently by individual business groups using a corporate process. They are coordinated centrally by the Head of Partnerships through their inclusion in the partnership database, which is updated on a quarterly basis.</p>	<b>Implemented by MPS and DARA advised. Awaiting formal closure by DARA.</b>

## APPENDIX 2 – DETAILED UPDATE ON ALL OUTSTANDING HIGH RISK AUDIT RECOMMENDATIONS (as at 31 August 2011)

Audit Title: Security vetting and clearance			Published: Raised April 2009
Ref	Recommendation	Current Progress & Milestones	Status
3	<p>Approval for the creation of a new centralised Vetting Unit has been given following agreement between ACSO and ACSC. Recommended that Senior Management in the new unit develops a strategy for approval by Management Board that;</p> <ul style="list-style-type: none"> <li>• <i>Supports National and Corporate Policy.</i></li> <li>• <i>Includes clearly defined roles and responsibilities;</i></li> <li>• <i>Sets out governance arrangements including the remit of the Departmental Vetting Officer;</i></li> <li>• <i>Contains a requirement for designated Business Group Vetting Officers to identify the levels of clearance required for key posts within their BGs and to document clearly the rationale;</i></li> <li>• <i>Sets out monitoring and review activities;</i></li> <li>• <i>Is supported by appropriate, documented and approved corporate and local procedures;</i></li> <li>• <i>Includes a requirement for KPIs to be set and monitored.</i></li> </ul>	<p><b>Update from Head of Vetting 9th Aug 2011.</b></p> <p>The Draft MPS Vetting Policy has the support of both Vetting Board and MetSec Board and will be submitted into the formal quality assurance process this week with a view of it being published in September.</p> <p>It is anticipated that once the Policy and SOP are published and the supporting processes can be shown to be in place, several more medium risk recommendations can be signed off at that point.</p>	<p><b>In progress - not yet fully addressed within original agreed target date(s)</b></p> <p><b>Target Implementation Date: A revised target date - 09/2011. Vetting Policy is due to be published at the end September / October 2011.</b></p>
	<p>Units within SCD and SO are both responsible for different aspects of the vetting system and both maintain separate stand alone IT systems. To improve control over record keeping it is recommended that;</p> <ul style="list-style-type: none"> <li>• <i>Each BG Vetting Officer maintains details of non MPS staff clearance requests submitted to the central vetting unit</i></li> <li>• <i>An independent central list of all non-MPS personnel is established by a designated individual in liaison with each Business Group</i></li> <li>• <i>The vetting unit compares a sample of individuals on this list against the access logs and their database of non MPS staff who have been security cleared;</i></li> </ul> <p><i>A central database is maintained showing the security clearance status of all MPS staff and contractors.</i></p>	<p><b>Update from Head of Vetting Aug 2011.</b></p> <p>The MPS Vetting Unit has started working with the vetting software supplier to map out how the upgrades required this FY will be delivered. This work is on track and we anticipate an upgrade will be available this FY (Feb 2012) that will provide full record management capability - including creation of a vetting database - which will also ensure a skeleton record is created when files are deleted to comply with audit requirements.</p> <p>Work has started to check with companies who are contracted to work for the MPS and who have staff still deployed on MPS contracts. This is with a view to reconciling this information with data held on the vetting case management system so that records can be updated accordingly. This will become business as usual and this requirement is written into the revised policy. In relation to the implementation date of February 2012 - this relates to changes in the software in WARRANTOR (the vetting database) which will enable Vetting Branch to reconcile old and current vetting cases. It will also enable Vetting Branch to delete expired vetting cases leaving a skeleton record for audit purposes.</p>	<p><b>Target Implementation Date: 28th February 2012</b></p>
