|                 | General Procurement items (award of contract or business cases)  |  |

## Notes on Resources Sub Committee

- 1. Individual Procurement/IT/Estates business plans/approval to contract award can come to any of the monthly meetings on an ongoing basis for detailed assessment. Promote clear forward planning of future business in all 3 areas by MPS.
- 2. Possibility of informal visits e.g. to Resources staff units in Empress State Building to further the sub-committee's work. Increased emphasis on feedback from front-line and public users of the resources, and on external benchmarking, value for money, and input from external sources like the HMIC, NPIA and Audit Commission.
- 3. It is planned to have a private informal half hour induction in the first 4 meetings subjects still to be decided
- 4. Delegation for procurement to be decided at first meeting and reported to the January Finances and Resources Committee
