

Introduction

The report begins with a summary of performance against the “critical 13”, the major indicators the MPS is to be monitored against in the Policing Plan (Appendix 2). Appendix 3 is a report of all of the other targets and Statutory Performance Indicators (SPIs) on which the MPS is monitored.

The information compares the target with the performance during the performance year to date (PYTD) and the rolling 12 months where this is available. The rolling 12 months figure balances the PYTD data, as it is not distorted by seasonal factors. Performance against target is shown as a traffic light.

The Home Office iQuanta rankings (1 = best and 5 = worst) are now included where relevant. The MPS is compared against its Most Similar Forces (MSF) - Greater Manchester, Merseyside, West Midlands and West Yorkshire).

Performance – April 2006 to January 2007

Crime continues to fall across London, with almost 57,000 fewer offences since April 2006 compared with the same period in 2005/06. The MPS has improved its sanction detection performance, with the SD rate now at it's highest since 1998. The MPS also leads its MSF group with respect to the public's confidence in local policing.

Five of the critical 13 are on target, five are missing the targets and a further three do not have a target. Amongst the five missing their target, only one is significantly off target, the others are marginal – we expect criminal networks and BCS comparator crime to be on target by the end of the year. Of the critical indicators on target, BCS violence is currently showing a reduction of 7% against a 5% target, and the sanction detection rate for all crime is well above target (21% vs. 20% target).

Gun crime is also a key area of good performance – the current performance is one of a 13.7% drop in gun-enabled crime so far this year. Some areas for improvement remain:

- Overall victim satisfaction (79% vs. 81% target)
- Victims of racist incidents satisfaction at 62% (72% target)
- Perceptions of anti-social behaviour (26% vs. 24% target)

In the remainder of the Policing Plan indicators, there are many areas of success:

- 11 indicators are on target
- 3 are off target

Appendix 2: Performance in the Critical 13

Critical Performance Areas	FY to Jan 07 Performance	Target	Trend & Additional Information
Victim satisfaction with overall service (SPI 1e) (Q1,2,3 06/07)	79%	81%	Consistent performance in Q1 and 2 at 80%, Q3 dropped to 77%. MSF rank: 4
Victims of racist incidents' satisfaction with overall service (SPI 3a) (Q1,2,3 06/07)	62%	72%	Q1 75%, Q2 52%, Q3 64% - very variable, MPS is working on ways to improve sample size. MSF rank: 1
% of police officer time spent on frontline duties (SPI 11) - % is for 2005/06	61.9%	Monitor	Provided by Home Office on annual basis, therefore unchanged MSF Rank: 2
% of people who think anti-social behaviour is a problem (SPI 10b) - % is for Yr to Sept 2006	26%	25%	This has increased compared with last quarter (24%) MSF rank: 5 (down from 4)

[Change in robbery]	+2.0%		Sept to Dec 06 were significantly high, January 07 has reversed an upward trend MSF rank: 5
Crime in most challenging wards	-		Proposed not to set a target for 2006/07
% domestic violence incidents where an arrest was made related to the incident (SPI 8a)	41%	40%	Improvements in recent months (Dec 47%, Jan 44%). On target
Change in gun crime	-13.7%	-4%	This indicator has been on target throughout all of this FY. MSF rank: 4
Number of criminal networks disrupted - monthly average	12.4	12.5	Performance improving, but still slightly below target. There is a slight delay in the reporting of this indicator
Sanction detection rate for notifiable offences (SPI 7a)	21.0%	20%	On target, eight consecutive months above 20%. MSF rank: 5
The number of offences brought to justice - monthly average (PSA 3)	16,850	15,417	PYTD is highest in comparable records for MPS, January OBTJs at 17.6k. MSF rank: 5

Appendix 3 - Performance Assessment

On target

Marginally below target

Well below target

Blue background of green traffic light indicates the MPS has achieved 10% or better than target

Performance Yr To Date (PYTD) = April 2006-January 2007 unless otherwise stated in ()s next to the indicator. Rolling 12 months = 12 months ending at the same time as the PYTD period.

Population based data reflects 2004 Mid-Year Estimates.

Further information regarding iQuanta and MSFs is contained on the summary page, left hand column.
