Key and Additional Information Figures in blue indicate the MPS achievement compared to target Figures in red indicate the MPS achievement compared to target

With the exception of 'sickness' and 'civil staff turnover' strength figures are as at the end point of the period in question.

The **Current Trends** column shows an assessment of recent performance (I.e. upto the current 6 months based on the py 2003/4 The assessment is represented by an assessment code (see key below)

- There has been no marked change in performance The trend has improved greatly The trend has made a marked improvement

- $\boldsymbol{\mathsf{X}}$ The trend has made a marked deterioration

X X The trend has deteriorated greatly

Where no assessment code is shown, this remains to be developed

Ann. (1)

- Annualised figure Latest available data runs to March 2004
- (2) Comparison against baseline figure calculations

Combination of those who think the police do a 'good' plus 'excellent' job (3)

Population based data reflects 2002 Mid-Year Estimates. Households based data reflects the 2001 Census figure.
